DIGITAL SEAL

from **BABACO**

The FBI estimates cargo theft in the United States accounts for about \$10 Billion in direct merchandise losses annually.

BABACO Digital Seal[®]

- + Guards doors that should remain closed and identifies if they have been tampered with.
- + Proves the integrity of the load.
- + Is PERMANENTLY mounted on the door and provides a seal every time the door is closed.
- + Replaces flimsy plastic seals that can be tampered with and broken. Plastic seals also can interfere with the padlock locking mechanism.
- + Reusable: Replaces the old-fashioned metal or plastic seals, which when broken cannot be reused.
- + Batteries last up to four years.
- + Automatic Operation: The digital seal is mounted on the door and provides a seal every time the door is closed.
- + Provides feedback if the door is closed correctly. The BABACO Digital Seal[®] will show the word 'OPEN' in its display read-out.
- + Can never be missing or cut.

For added protection ask BABACO about our line of cargo door locks for rollup doors and swing out doors. BABACO locks eliminate padlocks and automatically lock when the door is closed. Add a BABACO commercial truck alarm for the ultimate in cargo protection. BABACO has been securing cargo for over 80 years since 1930.
